I have no voice today from singing along so much! Everyone we know has commented saying how amazing you were (and it was a brass band wedding so they at least like to think they know what they're talking about!) Words cannot express how happy you made us both and how perfect you made our night.'

# ADDITIONAL: TAILORED TOUCH

We know how important your wedding is to you, so where we can we add that extra special touch that reflects your vision for your big day. Choose from our personalised add-ons to create magical moments.

## THE CEREMONY

Let music mark the occasion as you tie the knot. We'll follow your lead to shape a soundtrack that suits the mood. Ask us to set the scene for a romantic ambience or raucous celebration to start your married life.

## GET CREATIVE

Choose up to three tunes from our repertoire for:

- Beautiful bridal entrance music
- Signing of the register entertainment
- Celebratory exit parade

## ARRANGED FOR YOU

Want to include a favourite song that's not in our repertoire? We can specially arrange music if it's suited for brass instruments, so you can create a personalised soundtrack for your final steps down the aisle or your first dance of married bliss.

## GET CREATIVE

Create a stand-out memory in your day:

- Bridal party entrances
- Ceremony exit
- First dance
- Grand exit
- A surprise for your partner

Get in touch and talk to us about your ideas, it may be that your chosen song cannot be arranged for brass instruments but we can work together to find a tune that is equally as special.

*Maximum of one arrangement per event.*

# ADDITIONAL: BIGGER SOUND

Every venue and wedding schedule is different but we make sure we can adapt to fill the space. We have two add-ons that help you flex your musical entertainment so that your sound is never compromised.

## BRASS+

Got a BIG space to fill? We're talking about a party fit for an arena. No fear, our high energy sets will lift the roof of any venue. For larger areas, you may want to choose our wireless setup that amplifies our signature acoustic sound.

### THIS INCLUDES:

- Hire of a full PA rig and engineer
- Wireless mic sets for our raucous roaming band

Get in touch if you need some advice about your venue, our Brass+ option is only necessary for much larger spaces — trust us, we're LOUD.

## PA HIRE

If you're new to the party planning game, here are two questions to ask:

- Does your venue have an in-house speaker system?
- If you don't want a DJ, what will you use to play music after Back Chat's sets?

Add on our PA hire and ensure exceptional sound quality for background music, party playlists, or even dinner speeches (bad jokes and all). Our PA Hire can be used to amplify speeches or your own mixes in between and after our live music. As ever, we can flex to meet your needs throughout the day.

## GET CREATIVE

Ask us to take on more of the load with:

- A professional sound system for party or background music
- Wireless mics for the wedding speeches
- Prepared playlists upon request
- Full supervision to ensure everything runs smoothly

Our PA Hire is only available for the booking period of your main package (afternoon, evening or full day) as it requires a Back Chat Brass member to supervise the system at all times. Let us know if you're interested in PA Hire as soon as you can as it is subject to availability.

## LOOKING FOR DIFFERENT TYPES OF MUSIC THROUGHOUT YOUR DAY?

Fancy a mix of brass with strings, jazz, soul, blues — or something else entirely? Have a moment in mind that needs a whimsical touch rather than our brassy beats?

We hear you.

That's why we've launched Back Chat Music, our agency that brings together the best of our favourite professional musicians alongside our signature sound for your big day.

If you're new to music curation (most people are), then you can lighten the load and turn to our professional musicians with the pick of our most recommended acts.

## WHY CHOOSE BACK CHAT MUSIC?

- All artists are carefully selected and given the Back Chat seal of approval
- Choose from our varied roster of bands and genres
- Not sure what will work? We can curate the music for your day
- We'll organise all of the bands and cut out the admin for you
- We'll get to know your day intimately and arrange music that complements every moment.

# FAQS

## Do you have a singer?

We've got some good tubes between us. We often pick up the mic to belt out your favourite pop hits but we don't have a stand-alone singer. Check out our live performances to see how we engage with guests and crowds.

---

## Will it cost less if I book shorter sets?

A lot goes into a Back Chat gig, so the band is paid per performance rather than just the time in which you see us. Because of that, it does not make it cheaper to ask for a shorter set.

---

## Do you have reduced line-up options?

It's not for us. When you book Back Chat Brass we want you to get the full powerhouse of brassy beats, so we don't compromise on our sound with a smaller band.

---

## Can we make requests?

We take requests on a case by case basis. Because of our big brass sound, each tune is specially arranged for our line up. If you would like to make a special request, please let us know well in advance and we will do our best to accommodate it. We can only accommodate one tailored arrangement per event due to the time and investment required by the whole band — but it's worth it to see your faces light up!

---

## What gear do you bring and do we need to book the PA?

We do provide PA Hire as an additional option, but it is not required for our bookings as it is only necessary for playlists between sets. Otherwise, it's just a good set of lungs and our instruments.

---

## How long does it take you to set up?

Next to no time at all! As an acoustic band, we can take as little as 10 minutes if necessary.
